

## Front Matera Data Sheet

Factsheet —

**Materials:** Matera L097T fronts in Seashell white matt AFP combined with worktop K098 in Seashell white textured

**Planning details:** SingleX system, frame support, cupboard with roller-shutter, floor-to-ceiling design, tall larder unit, towel rail

### Picture description

Clear and minimalist: the seashell white fronts combined with a worktop in the same colour create a consistent, harmonious look. This is emphasised by the new SingleX handle system, which only has a single grip ledge just under the worktop, as well as the floor-to-ceiling design. This creates a finish that is both perfectly understated and visually appealing. The cupboard with a roller-shutter is a visual highlight that breaks up the consistency of the fronts. Concealed inside the drawer is our functional frame support which divides the available storage space into two different levels.

### Material description

**Matera** | UV lacquer front, available in 6 colours

Matera fronts are made of particle board with a direct coating. Renewable primary materials account for 89% of their content, 71% of which is wood from the circular economy. The matt surface is smooth to the touch and easy to maintain thanks to its anti-fingerprint properties. It also looks great in the new front colours seashell white, crystal white and lava black.

Front thickness: 19 mm

**SingleX** | Handle system available for the X2 and X5 systems

The new SingleX system has just a single grip ledge profile, whilst the lower pull-outs can be opened with the mechanical Tip-On system. The elegant, aesthetically pleasing lines give the kitchen a minimalist appearance. It also has many functional advantages – the absence of a second grip ledge means more storage space and volume and thus a greater capacity. With just a light touch of the knee to open the bottom and an elegant grip ledge profile to open the top by hand, SingleX embodies ergonomics, practicality and clean lines.

## Social Media building blocks

### Caption idea

Perfectly coordinated! The subtlety of the matching seashell white fronts and worktop is sure to win you over. Combined with the SingleX handle system, the result is a harmonious look all round.
