### Image description

Sophisticated kitchen dream: purist design in which you feel completely at ease – the right planning and innovative materials make this possible without any problems. The metallic-cool look of the Smartglas matt fronts has a calming effect. At the same time, the polymer glass surface impresses with its high-quality finish, which makes it particularly stable and robust in daily use. Further comfort is provided by the swivelling sockets, the table fan, the stylishly illuminated side shelves, as well as the extra-deep wall units, which form a line with the tall units and offer sufficient storage space for supplies or utensils.

### Material description

**Smartglas matt** | Polymer glass front, available in 6 colours

The polymer glass surface impresses with its high-quality finish, which makes it particularly stable and robust in daily use. The special AFP anti-fingerprint property reduces fingerprints and thus considerably reduces the cleaning effort. At the same time, the contemporary, velvety design invites you to touch it and feel good.

Front thickness: 19 mm

### Further information

The characteristic aesthetics of the material are based on an extremely matt surface structure that achieves a strong expression and at the same time blends discreetly into any interior. The Smartglas matt range is available in five colourways. The version shown here in elegant Titanio Metallic conveys an atmosphere that is opulent, sublime and minimalist at the same time.
